Acids And Bases Test - ProProfs Quiz

Salts of weak acids and bases form buffer systems. A buffer system consists of an equilibrium between an acidic species and a basic species. Note the "equilibrium", you can't just dump HCl and NaOH together and expect buffering, because neutralization will occur and the acidic species and the basic species won't be at an equilibrium.

Acids/Bases - MCAT Review

Acids and Bases In order to do well on the SAT Chemistry Subject Test, you'll need to know a few things about acids and bases, including what they are, how they behave in water, and how they react with each other. Sometimes water molecules split apart to form H^+ (a hydrogen ion) and OH^- (a hydroxide ion).
