Solutions To Munkres Topology Chapter 3

Munkres' book, though, treats it as a goal of itself, as a fun world to play in, and as such, has attracted many students to topology. It is recommended that a student first learn about metric spaces in a first-year undergraduate analysis class before learning about point set topology.

group of π_1 ; For a path connected space (or for a path connected component of a space) the choice of the point is not important: if X is path connected, then $\pi_1(X, x_0)$ is isomorphic to $\pi_1(X, x_1)$. To show this, for a path connecting x_0 and x_1 , we introduce the map defined by which is a group isomorphism.; The reference point is still needed, because the isomorphism between ...
