Read Free What Doctors Feel How Emotions Affect

This book aims to raise awareness in doctors and in patients about those emotions, especially the more troubling ones: fear, shame, grief, anger, and being overwhelmed or feeling burned out. In the “Afterword,” Dr Ofri explains that she chose these emotions because they “exert the strongest influence on medical care.”

Danielle Ofri's book,
What Doctors Feel, is
one that should be
required reading in all
medical schools, and it
should also be read by
all patients to help
them better navigate
the undercurrents of
their relationships and
experiences with their
doctors, particularly, as
these undercurrents
involve the generally
